

Large Animal Rescue Training (LART)

***Sponsored by PA-SART & Homeland Security Approved
Animal Emergencies in an Agricultural Environment (PA-003-RESP)
Penn State University, University Park Campus***

Part 1: April 26-28, 2019

Part 2: May 10-12, 2019

Times: 6-10 PM on Fridays; 8 AM to 5 PM Saturdays and Sundays

In any area in Pennsylvania, it is highly likely that animal agriculture is an important part of the community. When animals are involved in emergencies, specialized training is required to ensure animal safety and the safety to those responding. This course will provide the training necessary for **County Animal Response Team** members and **emergency services first responders** to be able to assist on the scene with disasters and emergencies involving large (farm) animals.

The training will include classroom instruction and detailed hands-on exercises that will allow the participants to practice their new knowledge and skills. There will be extensive hands-on exercises involving live animals.

The **extensive hands-on training** is limited to 30 participants per class.

Who Should Attend

- ▶ **First Responders and CART members** who want to develop operational skills and procedures for managing various farm animal related emergencies in their community.
- ▶ Managers of emergency response organizations who want to understand procedures, techniques, and response activities unique to agricultural emergencies and disasters.

Prerequisites

You must be a member or employee in good standing of a first response agency or organization (fire, EMS, law enforcement, agriculture, CART, etc.) and have completed the basic training of that agency or organization in accordance with the AHJ. At a minimum, **IS-100.a**: Introduction to the Incident Command System, **IS-700.a**: National Incident Management System (NIMS), and **Haz-Mat Awareness level**. **All of which can be obtained online. LART Part 1 is required for Part 2.**

Topics

Farm Incident Management; Animal Behavior & Handling; Foreign Animal Diseases/Biosecurity & Zoonotics; Animal First Aid; Emergency Euthanasia; Professionalism and Liability Issues. Packaging and moving recumbent large animals. Packaging and lifting large animals. Rescues from mud/water. Trailer overturns/extrication.

After successful completion of this training course, participants should be able to:

- Describe appropriate resources that should be requested to the scene of an emergency involving farm animals.
- Demonstrate proper incident management steps during farm animal related emergency scenarios.
- Discuss the behavior characteristics of various farm animals and demonstrate how to safely restrain and move them.
- Discuss the importance of teamwork between emergency responders and farm animal specialists in managing emergencies involving farm animals.
- Demonstrate effective emergency first aid care techniques on farm animals.
- Demonstrate how to recognize, utilize, and improvise a variety of equipment and techniques in animal rescue scenarios.
- Demonstrate the importance of utilizing preplan information in managing a variety of simulated farm emergency scenarios.

This class is limited to 30 participants. **Pre-registration is required**. Complete the information below and return by **April 5, 2019** to the address below the registration or email to shb5060@psu.edu. Contact Steve Brown @ 814-865-7158 or shb5060@psu.edu with any questions. More information will be provided after you register.

The University is committed to equal access to programs, facilities, admission and employment for all persons. It is the policy of the University to maintain an environment free of harassment and free of discrimination against any person because of age, race, color, ancestry, national origin, religion, creed, service in the uniformed services (as defined in state and federal law), veteran status, sex, sexual orientation, marital or family status, pregnancy, pregnancy-related conditions, physical or mental disability, gender, perceived gender, gender identity, genetic information or political ideas. Discriminatory conduct and harassment, as well as sexual misconduct and relationship violence, violates the dignity of individuals, impedes the realization of the University's educational mission, and will not be tolerated. Direct all inquiries regarding the nondiscrimination policy to the Affirmative Action Office, The Pennsylvania State University, 328 Boucke Building, University Park, PA 16802-5901, Email: aao@psu.edu, Tel (814) 863-0471.

Penn State is an equal opportunity, affirmative action employer, and is committed to providing employment opportunities to all qualified applicants without regard to race, color, religion, age, sex, sexual orientation, gender identity, national origin, disability or protected veteran status.

The Pennsylvania State University encourages qualified persons with disabilities to participate in its programs and activities. If you anticipate needing any type of accommodation or have questions about the physical access provided, please contact Steve Brown in advance of your participation or visit.

PennState Extension

I am registering for Animal Emergencies in an Agricultural Environment (LART) taking place at Penn State University Park Campus on the dates listed above.

Name: _____

Address: _____

Town: _____ State: _____ Zip: _____

Phone: _____ Email: _____

Department/agency: _____
