

Farm & Ranch eXtension in Safety and Health (FReSH)

Ag Safety & Health Monthly News

eXtension #i3Corps Project

The Wearable Technology Learning Network and FReSH are teaming up for an #i3Corps project through eXtension. Aaron Yoder and Linda Fetzer attended the National eXtension Conference in San Antonio and had the opportunity to network and learn from specialists to outline the project. The project will use wearable technology (fitness trackers) to ergonomically test prototype manure forks for women in agriculture. We will be working with [Green Heron Tools](#) and the eXtension Women in Ag Learning Network.

Safety in Ag for Youth (SAY) Belief Statement

The Safety in Agriculture for Youth (SAY) Project National Steering Committee is working on the development of a belief statement regarding youth involved in agriculture. During the March 2016 meeting, the committee reviewed two drafts and worked on the document that will be used to outline an articulation of consensus-based beliefs and principles that promote safety and health for youth working in agriculture.

Click [here](#) to register for the ISASH Conference on June 26-30 or the ISASH Agricultural Safety & Health Certificate Course, June 30-July 1, 2016 in Lexington, Kentucky.
