

## Farm & Ranch eXtension in Safety and Health (FReSH)

### Ag Safety & Health Monthly eNews

#### Summer 2017 Beat the Heat

Farming, fishing & forestry workers are at risk for heat illness because of exertional heat stress. Heat illness occurs when the body can no longer cope & the body's physical & mental functions break down. Most important to know, is that heat illnesses and deaths are preventable. Key information and engaging games (English and Spanish) are available at [nasdonline.org](http://nasdonline.org)

#### Ag Injury News Clipping

The Ag Injury News Clippings is a web-based system that provides an interactive display of publicly available news clippings involving agriculture, fishery, and forestry incidents. The website is located at [www.aginjurynews.org](http://www.aginjurynews.org). You can search the system and also submit news from your area.
