

Farm & Ranch eXtension in Safety and Health (FReSH)

Ag Safety Seasonal News

Community of Practice (CoP) Update

Aaron Yoder and Linda Fetzter participated in an eXtension Innovation meeting earlier this month. The meeting purpose was to plan how to help Cooperative Extension professionals increase their measurable local impact by doing their work effectively using a constellation of people, resources, and tools within Cooperative Extension.

eXtension Image Audit

All CoPs are involved in an eXtension image audit to verify photo sources, properly credit photos, and have permission for each photo on file. If you have provided FReSH with photos/images, you may receive an email from Linda in coming weeks.

National Farm Safety & Health Week Activities:

- [Webinar opportunities through AgriSafe](#)
- Information and application for the [2016 ASHCA Safety Grants](#)
- [Scholarship opportunity](#) through ISASH to attend their annual conference, June 26–30, 2016 in Lexington, KY.
- Remember to promote ag safety & health resources like [FReSH](#), [National Ag Safety Database](#), and the [U.S. Agricultural Safety and Health Centers YouTube Channel](#).

Ag Safety and Health

September 2015

Fall Safety Tips: Be visible on roadways with SMV emblems, reflective tape, and adequate lighting.
