

## SAE Code of Practice for Safety Risk Assessment

This Code of Practice seeks to promote and strengthen the safety of the student in agriculture while completing a Supervised Agricultural Experience. The SAE project will be under the supervision of the agriculture teacher, employer, and/or parent. While participating in my SAE program, I not only represent the \_\_\_\_\_ (local) FFA Chapter, but \_\_\_\_\_ High School, community and the state and National FFA Organization. The \_\_\_\_\_ (local) FFA chapter has established certain safety expectations that must be observed while completing my SAE project.

- I promise that my attitude, conduct, and appearance will be such to reflect safe work practices
- I promise to abide by the National FFA Code of Ethics
- I will not possess or use drugs, alcohol or tobacco while participating in my SAE project
- I will use safe working habits during my SAE
- I will use all machine guards, protective equipment, information, training and seek regular supervision if necessary to protect myself from risk
- I will review health and safety guidelines as established for my SAE on a regular basis
- If a dangerous situation arises, I will stop work immediately until the hazard is controlled
- If I feel uncomfortable about a task I am asked to complete, I will talk to my employer, teacher, and/or parent
