Formal Curriculum refers to material that: 1) has learning goals or objectives that are clearly stated; 2) includes subject matter content supportive of the learning goals or objectives; and 3) has an evaluation component (e.g., some type of student assessment, such as a quiz).

Other Supporting Resource refers to individualized, originally authored resources, such as technical fact sheet series, video clips, PowerPoint presentations, or other materials that lack one or more of the 3 elements of a Formal Curriculum.
